A Place To Be...
To Skyrocket Your Growth

Jointly Organised by:

PRESIDENT'S MESSAGE

Dear friends,

As you are aware, MTMA had organized a Machine Tool Show at Rajkot and it is once again organizing yet another Machine Tool Show at Rajkot during the year 2012. With 3 successful exhibitions in its kitty, MTMA is now having sufficient experience in promoting them on a national scale. This time it will be on a larger platform coupled with foreign and domestic participation. It is a matter of great pride and satisfaction that now Rajkot occupies a prominent place in the machine tool map of India, not only in India but internationally due to the unending efforts of local industries. There was a time when Rajkot was known as the Diesel engine capital of India, which was in late 1960s. But since then Rajkot engineering industries has shown growing vitality that within a short time it has transformed itself into an engineering hub attracting customers from across the globe.

Knowing this, I am quite sure that the show will attract good participation from exhibitors as well as visitors thereby creating a good opportunity for participants. I now appeal to you to participate in this event enthusiastically to make it a grand success.

SHAILESH KAWA
President
MACHINE TOOLS MFGRS. ASSOCIATION RAJKOT

RAJKOT MACHINE TOOLS SHOW 2012

RMTS 2012 will be an exclusive showcase for engineering, machine tools, automation, & automotive technology. It will cover over 250000 Sq. feet of exhibition area and will have participation from over 500 companies both national & international. It will prove to be an endeavor designed to present the entire spectrum of developments in the machine tools sector. It will be an excellent opportunity to strike quality conversations with existing and potential customers by establishing new contacts and strengthening the existing ones.

Timings :

09 am to 07 pm (Exhibitors)

10 am to 04 pm (Business Visitors)

04 pm to 06 pm (General Visitors)

A STEP TOWARDS A BETTER FUTURE....

Machine Tools Industry is considered to be the backbone to the all engineering industry. And when it comes to production, Rajkot is the third largest Machine Tools Manufacturer in the country after Bengaluru and Pune. Currently, Rajkot is the leading manufacturer of conventional machine tools and with the increasing demand inflow; opportunities from across the globe are coming towards Rajkot.

The entry of big names such as AMW, ATUL AUTO, TATA, MARUTI, FORD and now PEUGEOT into the Gujarat region has ensured that the market of auto ancillary industry is moving upwards. Rajkot is considered to overtake the current 3rd spot that it has in the coming few years as a few other major automobile manufacturers are also planning to have their manufacturing plants in the region and making it a preferred AUTOMOBILE HUB.

With about 350 to 400 machine tool companies out of which 95% units are producers of conventional machine tools and supply across India. According to industry sources, since the past few years, the share of local consumption of tools has also increased from 10% to 20% given the growth in auto parts, foundry and engineering industries in the country.

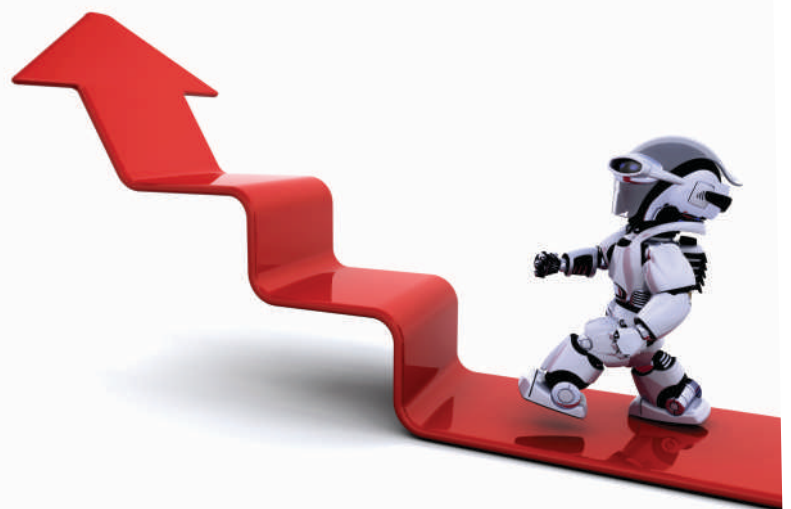

In the last couple of months, the automobile industry in India has seen a significant growth amidst fears of rising interest rates and raw commodity prices. Having a turnover of over 1200 crores, the Rajkot auto ancillary industry is growing by 35% per annum.

According to a report in the Business Standard: "The machine tools industry in Rajkot has been on the growth mode ever since the industry has changed gears from the last year." According to the report, "as against a 25% rise in production capacity, order books for the industry have been rising by about 100%."

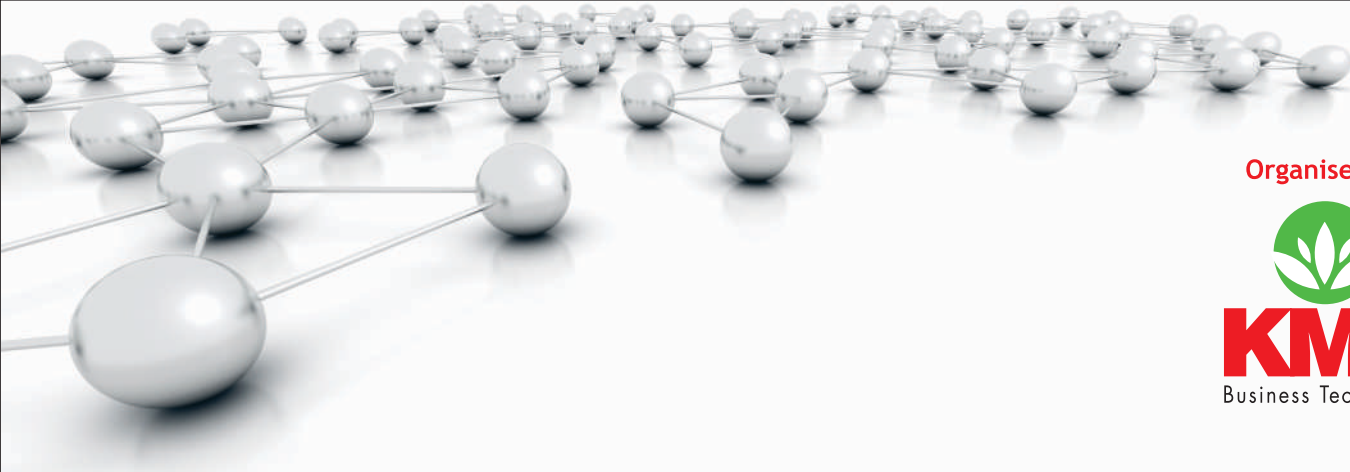

During the financial year of 2010-2011, the industry has achieved its set target of Rs 800 Crores for turnover, posting a growth of 30% per annum. The Rajkot based industry has also lately seen support from the United Nations Industrial Development Organization (UNIDO) for technology upgradation.

To promote the Machine Tools Industry and to invite more business to Rajkot, KMG Business Technology and Machine Tools Manufacturers' Association – Rajkot has taken an initiative to organize "The Rajkot Machine Tools Show", a complete engineering exhibition specifically designed to promote Machine Tools, Machinery, Automation & Automotive Technology and Material Handling.

The previously concluded editions of Rajkot Machine Tools Show was a grand success and recorded a business of 450 Crores (In three Editions) and visitors over 25000 in each edition.
